## Grain Buyer

Responsible for procuring (negotiate & buy) and contracting (PO/Supplier contract reconciliation, negotiating/correcting inaccuracies on receipts/invoices) for Corn, Soybeans and Wheat from local farmers and/or elevators. Individual will ensure maximizing returns while maintaining competitive pricing for our customers, as well as ensure that company and customer risk management strategies are followed at all times.

### ESSENTIAL JOB FUNCTIONS:

- Purchase grain with cost savings to prevailing market.
- Know seasonal and geographical market characteristics.
- Use historical basis patterns to WFM advantage.
- Anticipate supply-demand balance and shifts.
- Predict and capture opportunities in future markets, while limiting risk exposure.
- Understand transportation costs and trends.
- Purchase ingredients according to product specifications.
- To ensure mill locations do not run out of product.

### REQUIREMENTS:

- Knowledge of supply-demand economics.
- Ability to relate to needs of agri-business people.
- Ability to negotiate favorable contracts.
- Ability to develop mutual trust and satisfaction with vendors and customers.
- Ability to respect market directions and handle the pressure of market positions.
- Ability to work in a team environment.
- Solid organizational skills and attention to detail.
- Strong written and verbal communication skills.
- Experience with CBOT and related activities preferred.
- BS Degree in Ag Business or related degree preferred.

### BENEFITS & CORE VALUES:

As a progressive company with strong core values that serve as a guide for how we do business both internally and externally, we offer:

- Full benefit package after 30 days including medical, dental, vision, life, disability, paid time off, profit sharing/401(k) plan, meat bonus and more!
- Competitive compensation
- A corporate culture that plays a central role in our success as individuals and as a company
- Company commitment to our Core Values: Integrity, Quality, Respect, Safety & Stewardship.
