

JOB DESCRIPTION

JOB TITLE: Wenger Feeds Chief Operating Officer

DEPARTMENT: Wenger Feeds, LLC

JOB RELATIONSHIP:

Supervised by: CEO / President
Supervises: Feed Manufacturing Manager
Feed Transportation Manager
Quality & Food Safety Manager
Wenger Feeds Resource Coordinator

POSITION SUMMARY:

This individual is responsible for the profitability of Wenger Feeds and the management of all aspects of feed manufacturing and overall transportation to maximize quality and efficiency, while appropriately controlling costs and delivering optimal customer value.

ESSENTIAL JOB FUNCTIONS:

1. Coordinate with Direct Reports and key individuals to ensure effective communication and workflows, while optimizing efficiencies and minimizing costs to meet and exceed customers' requirements.
2. Develop and maintain positive internal and external relationships on behalf of Wenger Feeds to enhance quality and to deliver timely and efficient service and products.
3. Ensure that continual efforts are made to build and strengthen a safety mindset so that safety becomes an integral part of our culture.
4. Perform all financial activities necessary to plan, budget, and review for maximum performance of Wenger Feeds, including CapEx requests.
5. Collaborate with CCO on pricing matters.
6. Keep abreast of current related issues and ensure that Wenger Feeds maintains compliance with Wenger System goals and legal requirements.
7. Ensure the maintenance of all equipment and facilities to optimize cost efficiency and to be consistent with corporate branding.
8. Coordinate with Quality & Food Safety Manager to ensure quality standards are appropriately encouraged and upheld in all entities of The Wenger Group.

QUALIFICATIONS NEEDED:

1. Excellent oral and written communication skills
2. Highly developed organizational and effective task execution skills
3. Broad operational and financial management experience, 5+ years in feed manufacturing preferred.
4. Demonstrated leadership capabilities with strong interpersonal skills
5. Strong analytical skills
6. Advanced computer skills; solid understanding of ERP systems
7. Bachelor's degree in business-related discipline
8. Demonstrated experience in Lean Manufacturing
